## Objective

My objective is to work in a professional creative ambience that will provide me with the opportunity to get more experience in the Architecture world and all its surroundings.

## Experience

### + June 2016 / Present – Ghattas Graphics

Located in front of LAU lower gate – Beirut, I was hired as head of a team of designers (graphics, interior, architecture) to assist all kind of design students in developing their work, progress, printing, materials and modeling.

Moreover, I also get outdoor jobs from designing advertisements to creating interior spaces, and architectural designs for private sectors.

And also in parallel, and through Ghattas Graphics, and I am working with Sprint Corporation, commonly referred to as Sprint, is an American telecommunications holding company in the United States. As the head of the team we are responsible for finalizing shop drawings dealing with all kind of poles, road engineering and lately high tower satellites, and all the work and redlines are submitted through Dropbox.

### + Fall 2014/ Summer 2016 – A.C.C Allied Consulting Company

Starting early this year with Allied Consulting Company – Downtown Beirut, I was hired as a contractor mainly dealing with all kind of finishes besides doing architect's jobs and visiting sites for inspection and control.

I was the person who submits prices and BOQs (cooperating with Italians) regarding towers, beach resorts and hotels (ex: Dolphin Hotel – Ashrafieh, Stone 55 – Zalka etc..)

I was responsible for Dr.Imad Machnouk's Apartment (Al Wadi – Downtown), dealing with false ceiling, lighting and tiling. As well as MAC627 a building located in Sodeco (paints, epoxy and false ceiling)

#### **+ Fall 2012/ Spring 2013 – Khatib Construction**

Around 7 months of training with Khatib Construction - Beirut (specialized in geotechnical and excavation), I had the chance to learn and expand my knowledge by assisting a project manager (civil engineer) in a huge modern project: a tower with a shopping mall called Rive Gauche - Beirut.

Later on, after dealing with dewatering, anchors, meshes, excavation, shotcrete and all kind of heavy machinery, I was hired by Khatib Cons. as a site engineer to cooperate with a project manager from Binadar in a 2 block tower building called Beirut 828.

#### **+ Fall 2010 – Joseph Kiprianos Office**

About 4 weeks of work with my professor Dr. Joseph Kiprianos in Jbeil – Lebanon

I had the ability to transform the whole interior of a two leveled house into a dormitory for college students. That project was for a friend of Dr. Kiprianos located in Africa.

#### **+ June 2010 – Dar Al-Handasah (Shair & Partners)**

An 8 week summer internship at Dar Al-Handasah –Lebanon

I had the ability to assist the main architects as well as the project manager in drawing and designing plans for the interior such as shops (upholstery, paint and carpentry etc...), also huge lookers and toilets for the Four Seasons Hotel- Qatar.

In addition, I helped in adding standard furniture with their details (plans & sections) and finalizing floor plans and also submitting some execution drawings.

#### **+ July 2009 - Ali Mourabet Engineering**

A 4 week summer internship at Ali Mourabet –Lebanon

I had the ability to assist the architects in drawing the sections, detailed plans, doors schedule and designing the floor tiling along with the elevations for The Jaramana Shopping Center- Syria.

In addition, I helped in adding dimensions and calculating areas in other projects.
