

Full-stack developer focused on building reliable web applications across frontend and backend systems, with growing experience in cloud fundamentals.

WORK EXPERIENCE

.NET Full Stack Intern	IDS	Aug 2024 – Sep 2024
<ul style="list-style-type: none">Designed the database schema and SQL queries for the Activity Club Portal, improving data organization and reducing lookup complexity for events, members, and guides.Developed backend features in ASP.NET Core with Entity Framework to streamline data handling, reduce manual admin tasks, and ensure consistent CRUD behavior.Implemented Web API endpoints for real-time event and member updates, enabling users to browse and join events through a responsive public interface.		

EDUCATION

Beirut, Lebanon	Lebanese American University	Sep 2022 – Jun 2025
<ul style="list-style-type: none">B.S. in Computer Science.Placed on the Distinction List During Spring 2024 and Spring 2025 semesters.Ranked among the top 10 in university programming contests.		

TECHNICAL SKILLS

- Languages:** Java, JavaScript/TypeScript, C#, Python, C++, C, SQL.
- Libraries/Frameworks:** React.js, Next.js, Node.js, Express.js, ASP.NET Core, TailwindCSS.
- Databases:** PostgreSQL, MySQL, MongoDB
- Tools:** Git/GitHub, Postman, Swagger, DevTools, Visual Studio Code.
- Other:** REST APIs, MVC Architecture, Authentication (JWT, bcrypt), CI/CD, Nginx.

TECHNICAL EXPERIENCE

Projects

- Storynix** (2025) – Full-Stack Bookstore Application
React TypeScript, Node.js, Express.js, PostgreSQL
 - Built end-to-end user flows including product browsing, item details, cart handling, and a checkout pipeline.
 - Implemented an admin dashboard enabling product CRUD, inventory updates, and order management.
- Home Nest** (2025) – Real Estate Mobile Application
Java, Android Studio
 - Implemented multi-category search and filtering to improve property discovery and reduce navigation friction.
 - Added a favorites module with persistent state to support saved listing workflows.
 - Delivered a clean UI to streamline navigation and interaction.
- Hospital Management System** (2024) – Full-Stack Web Application
React, PHP, MySQL
 - Built multi-role dashboards to handle appointments, patient records, and admin operations, improving workflow clarity and reducing manual handling.
 - Added messaging and lab results modules to streamline communication between staff and improve data accessibility.
 - Ran PHPUnit tests to validate core features and maintain stable behavior during incremental development.

CERTIFICATIONS

- AWS Certified Cloud Practitioner** – Amazon Web Services (Nov 2025 – Nov 2028).
- Next.js App Router Fundamentals** – Vercel (Nov 2025).
- The Complete Full-Stack Web Development Bootcamp** – Udemy (Aug 2025).
