

Hussein Reslan

Beirut/Nabatieh, Lebanon | Age: 20

Phone: +961 76 760 246

Email: husseinreslan265@gmail.com

Profile

Motivated Computer Science (Cybersecurity) student with strong hands-on experience in system and network administration, server management, and IT troubleshooting.

Practical background in networking (Cisco/GNS3), Windows and Linux server administration, and web application security assessments. Adept team worker, quick learner, and highly skilled at solving technical issues. Fluent in English and Arabic.

Education

Bachelor of Science in Computer Science (Cybersecurity)

University of Sciences and Arts of Lebanon (USAL), Beirut

Expected to complete coursework: February 202c

Certifications

- **EC-Council Digital Forensics** (In Progress - Exam scheduled within 3 months)
- **Cisco CCNA 1** (Completed)
- **Cisco CCNA 2 s CCNA 3** (Completed, waiting for certificate to be issued)

Technical Skills

- **Programming:** Python, Java, HTML, CSS, JavaScript, SQL

- **Networking:** Cisco, GNS3 labs, VLANs, DHCP, SNMP, firewall configuration, IP management
- **System Administration:** Windows Server (Active Directory, DHCP, Group Policy), Ubuntu Server (UFW, Apache, backups)
- **IT Troubleshooting:** Hardware/server installation, diagnosing and resolving issues
- **Web Security:** Vulnerability assessment, basic penetration testing, web application security (OWASP Top 10)
- **Linux:** Terminal commands, server administration
- **Front-End Development:** HTML, CSS, JavaScript

Projects

Advanced Network Design and Management Lab (GNS3, 2025)

- Designed and implemented a multi-server network (Windows Server, Ubuntu Server, Windows 10 client) with inter-VLAN routing, DHCP failover, firewall rules, SNMP monitoring, and Group Policy configuration.
- Troubleshoot and resolved connectivity, routing, and service issues across devices.

Web Application Security Assessment (2024)

- Conducted hands-on penetration testing on web targets, identifying and reporting low/medium risk vulnerabilities.
- Assessed OWASP vulnerabilities in local labs and university projects.

N8N Workflows (2025)

- Created 2000+ workflows with help of ai in different categories(Gmail, Youtube, Telegram, Airtable, Twitter,etc)

Professional Attributes

- Excellent communication and teamwork skills
- Quick learner, adaptable to new technologies
- Strong troubleshooting ability in hardware, software, and networks
- Proactive and detail-oriented

Languages

- **English:** Fluent
- **Arabic:** Fluent
