Summary:

Computer Science graduate with experience in software development, telecommunications, and database management. Currently developing applications at Unilog while managing telecommunications and databases for the Internal Security Forces. Skilled in problem-solving under pressure and seeking innovative opportunities.

Experience:

- **Software Developer**, Unilog, Hazmieh. *(Jan 2025 – Present)*
Developing a C# .NET application for a client company that processes XML files containing database queries. The system executes queries on the relevant databases while allowing users to modify parameters, generating formatted outputs in both Excel and XML formats for client use.
- **Intervention Group Chief – Internal Security Forces**, Beirut. *(Nov 2022 – Present)*
Responsible for operations, with a role in database management.
- **Cadet Officer – Military Academy**, Hazmieh. *(Nov 2018 – Aug 2021)*
Achieved the distinction of ranking 2nd overall among 164 cadets during my tenure at the military academy.

Projects:

- **Sports-shop Website**: Developed a dynamic e-commerce platform handling over 100 daily transactions using HTML, CSS, and JavaScript with server-side functionality using PHP.
- **SQL Query Management Tool with XML Integration**: Developed a Windows Forms application using C# .NET Framework for executing SQL queries against MSSQL databases with XML configuration support. Implemented automated Excel export functionality with formatted data output and robust error handling. Features dynamic query loading, real-time data visualization, and database connection management.
- **Service Members Database Management – Internal Security Forces**:
Managed a secure database for service members' records, ensuring data accuracy, confidentiality, and secure access while generating 150+ monthly reports for administrative and operational use.

Education:

- **Bachelor's degree in Computer Science**, CNAM, Beirut. *(Sept 2022 – July 2025)*
- **Bachelor's degree in Military Sciences**, Military Academy, Hazmieh. *(Nov 2018 – Aug 2021)*
Specialized in military communications and telecom systems.
- **Lebanese Baccalaureate in General Sciences**, Besancon, Baabdash. *(2007-2018)*
Graduated top of class.

Skills & Languages:

Programming & Databases: PHP - Flutter/Dart - MySQL - Python - HTML/CSS - JavaScript - Java - C#
Languages: Arabic - French - English - Italian
