Computer science

3rd year/ Expected graduation date (july 2026)

French educated

SKILLS

Technical Skills — Python Java C# C++ JavaScript PHP // HTML CSS JavaScript React ASP.net Node.js// Flutter Android Studio Databases MySQL Microsoft SQL Server (SSMS)// Linux Windows Development Tools & IDEs Visual Studio Code Visual Studio Android Studio PyCharm NetBeans SQL Server Management Studio (SSMS) Dev-C++ GitHub

Soft Skills — Problem Solving /Teamwork /Fast Learner /Time Management /Communication /Adaptability

Languages — Arabic/English/French

PROJECTS

BookHive – Team Project (2 Members)

Library Management System

BookHive is a Java Swing desktop app that connects to SQL Server to let library patrons search, borrow, and buy books across multiple branches, while employees manage inventory, users, and view transaction reports.

LUXE

JS e-commerce UI exercise

A **front-end portfolio/learning project** that implements a full e-commerce shopping flow — browse, search, cart, checkout — using JavaScript and static product data, without a server or payment integration.

“easyPHP” intro project

A **minimal PHP + MySQL CRUD demo** dressed up as a product store — good for learning how a frontend talks to a PHP backend, with cart and data-model pieces still incomplete.

clinic management system

A **Windows desktop clinic management system** for managing doctors, patients, and appointments, backed by SQL Server — typical of a **C# / WinForms course final project**.

Pilates studio admin dashboard

A **Pilates studio admin dashboard prototype** — React SPA for managing trainers, classes, programs, and attendance, meant as a front-end demo rather than a production system with persistence and real auth.

ORGANISATIONS

DOT

DOT lebanon

successfully completed the AI For Social Impact course at Lebanese University Hadath part of UNICEF`s Generation Of Innovaton Leaders Programme (GIL)

GDSC
