Professional Summary

Full-stack developer with a B.Eng. in Computer Science and Communication Engineering, experienced in building secure and responsive web applications. Skilled in modern frameworks and agile development, with a strong focus on scalable, user-centered design.

Education & Training

Lebanese International University (LIU) – B.Eng. in Computer Science & Communication Engineering

March 2020 – June 2024

Key Skills: Programming, computer engineering, research

Professional Experience

Early-stage Startup (Stealth Mode) - Junior Software Engineer | August 2025 – Present

- Contributing to software development in a fast-paced startup environment.
- Currently developing a cross-platform mobile application using Flutter (Dart).
- Implementing UI components and application logic based on project requirements.
- Collaborating with team members using version control and agile workflows.

UNRWA & Digital Hub - Full-Stack Web Development Intern | July 2025 – Present

- Built full-stack projects with MERN (MongoDB, Express.js, React, Node.js), Laravel, PHP, MySQL.
- Developed RESTful APIs via Express.js, Next.js, and Laravel to streamline backend operations.
- Collaborated with teams via Git/GitHub and agile practices.
- Produced feature-rich dashboards and informative portals for fintech and role-based systems.
- Operated within Agile SDLC using Jira, sprint reviews, and daily standups.
- Implemented SOLID and design pattern techniques in project architecture.
- Applied UI/UX standards to optimize usability and design flow.

Freelance Web Developer – Remote | June 2023 – Present

- Delivered responsive, user-focused websites and scalable web applications.
- Collaborated with clients to build tailored solutions using modern technologies.

Sales Executive – Al Rawda | June 2020 – Dec 2021

- Managed sales transactions, logistics, and client relationships.
- Advised customers on home improvement materials to ensure satisfaction.

Volunteer Experience

Future Academy Squad — Volunteer English Instructor & Youth Mentor

Jan – May 2021

- Taught English to young learners and supported community development activities.
- Participated in mentoring programs and educational initiatives.

Humanitarian Relief for Development Society — Volunteer

Oct 2019 – May 2020

- Assisted in organizing educational workshops and distributing essential supplies.
- Supported social and humanitarian outreach programs.

UNRWA (United Nations Relief and Works Agency) — Community Volunteer

Feb 2019 – May 2020

- Contributed to community projects and humanitarian aid programs.
- Helped coordinate activities and provide support to local beneficiaries.

Project Experience

RentHub – Student Dormitory & Housing Platform

- Designed and developed a student dormitory web platform for browsing and renting rooms near universities.
 - Built a responsive and modern UI using Next.js and React.
 - Implemented backend functionality with MongoDB for data storage and management.
 - Developed features including property listings, search & filtering, user authentication UI, and informational pages.

[Github Repo](#) | **Tech Stack:** Next.js, React, MongoDB

Supermarket POS and Management System

- Designed and developed a Point of Sale (POS) application for supermarket operations, supporting barcode-based product scanning, automated billing, and receipt generation.
- Implemented multi-role access control (Admin, Clerk, Accountant) with secure authentication, comprehensive sales analytics dashboard, and reporting features.
- Built inventory and stock management modules with real-time tracking, low-stock alerts, and purchase order automation.

[GitHub Repo](#) | **Tech Stack:** MERN (MongoDB, Express.js, React, Node.js)

The Digital Hub Informative Website – The Digital Hub September–2025

Developed a fully responsive informative website with an admin dashboard featuring role-based access control for seamless content management.

[GitHub Repo](#) | **Framework:** Laravel

FCS Bootcamp – SeFactory (Remote) | May – Aug 2025

- Intensive full-stack training: Python, HTML, CSS, JS, MySQL, PHP.
- Built and deployed a full-stack web application with GitHub collaboration.

Network & Telecommunication / CCNA Training – Saida, Lebanon | Feb – Apr 2022

- Hands-on networking, IP addressing, and cybersecurity fundamentals. Addressing.

Skills

Programming Languages: JavaScript, HTML, CSS, PHP, Python, Java

Frameworks & Libraries: React, Node.js, Express, Next.js, Laravel, Bootstrap, Tailwind CSS

Databases: MySQL, MongoDB

Stacks: MERN, LAMP

DevOps & Tools: Kubernetes, Docker, CI/CD, Postman, Swagger, Git, GitHub

Version Control: Git, GitHub

Project Management & Design: Jira, ClickUp, Figma

Languages: Arabic, English, French

Other: Responsive Design, Problem-Solving, Communication, Teamwork, Teaching, Mentoring
