Summary

Full Stack Developer specializing in the **MERN** stack (MongoDB, Express, React.js, Node.js) with expertise in building dynamic, scalable web applications. Proficient in Object-Oriented Programming (OOP) with JavaScript, Java, and C#. Passionate about efficient code, problem-solving, and adopting new technologies.

Skills Highlight

- **Frontend:** React.js, Next.js, TypeScript, JavaScript, HTML5, CSS3, Tailwind CSS.
- **Backend:** Node.js, Express.js, RESTful APIs, WebSockets, Prisma.
- **Databases:** MongoDB, PostgreSQL, MySQL.
- **Programming Languages:** JavaScript, Java, C#, Python.
- **Version Control:** Git, GitHub.
- **Software Development Concepts:** OOP, Functional Programming, Design Patterns, Asynchronous Programming.
- **Software Methodologies:** Agile, Waterfall, DevOps.
- **Soft Skills:** Problem-solving, Analytical thinking, Adaptability, Time management, Communication.
- **Languages:** Fluent in English (APTIS-certified), Basic understanding of French.

Experience

Full-Stack Developer Intern, 3E Tech 01/2025 – 03/2025

- Developed and enhanced key features in the company's main project using ReactJs, TypeScript, NodeJs, ExpressJs, and Prisma.
- Collaborated with a development team to improve scalability and maintainability of web applications.

Front-End Developer Intern, Two Of Us L.L.C 04/2024 – 08/2024

- Built responsive React.js applications with a focus on UI/UX and user engagement.
- Contributed to real-world projects, integrating APIs and dynamic web applications.

Freelance Web Developer 10/2023 – Present

- Designed and developed web applications using MongoDB, Express, React, and Node.js.
- Delivered customized solutions, optimizing performance and user experience.

Video Game Plugin Developer 10/2022 – Present

- Created custom plugins for Minecraft using Java and the Spigot framework, enhancing game mechanics.
- Developed Node.js-based plugins for World of Tanks Blitz (WOTB), improving game functionalities.

Certificates

Full-Stack Bootcamp Champion, Techlarius Academy 07/2023 – 10/2023

- Intensive training in MERN Stack: MongoDB, Express, React, Node.js
- Developed real-world projects applying full-stack development principles

Projects

Selected Projects – Full list available at mmchahine0.github.io/#projects

- **Healing Horizon Healthcare Platform** – A healthcare platform for appointment scheduling, online medicine purchases, and centralized medical records.
- **POS System** – A streamlined Point of Sale (POS) system with intuitive menu management, order processing, and role-based access control.
- **To-Do App** – An advanced To-do management app implemented with role-based access, real-time updates using WebSockets, and dynamic UI with ShadCN, Tailwind CSS and additional modern web development techniques.

Education

Arab Open University, BS Degree in Computer Science 09/2020 – 05/2024
