## WORK EXPERIENCE

### Full Stack Software Engineer, [CloudLinks.ai](#)

Jul 2025 – Present

- Developed **Spring Boot microservices** for package delivery management with role-based access.
- Implemented **authentication, Spring Security, and MongoDB integration** for secure data handling.
- Built a **two-way WhatsApp Business API integration** for customer-agent messaging with logging, media support, and status tracking.
- Worked in a **multi-module Maven project**, collaborating via Git and Bitbucket, following **clean code practices** and validations.

### Frontend Developer, [Two Of Us](#)

Aug. 2024 – Sep. 2024

- Assisted in front-end development tasks using **HTML, CSS, and JavaScript**.
- Contributed to **responsive design and layout improvements** for client websites.
- Gained hands-on experience in **debugging and version control (Git)** within a professional environment.
- Led a team of 5 members**, coordinating tasks to achieve **100% of project milestones** and enhance team productivity.

## PROJECTS

### Chat Agent Module

- Integrated **WhatsApp Business Cloud API** with Spring Boot to enable real-time customer-agent communication.
- Implemented **webhooks, message DTOs, and reactive WebClient calls** for structured, non-blocking service communication with proper tenant context.
- Tested APIs using Postman** to verify requests/responses and ensure **database persistence and data retrieval**.
- Ensured **clean code practices, validations, and team collaboration** with **Git and Bitbucket**.

### Package Delivery Management Microservice

- Developed a **RESTful microservice** for managing package deliveries using **Spring Boot and Java**.
- Applied **Spring Security** for role-based access control (**Admin, DeliveryMan, Customer**).
- Implemented **secure password encoding, validation, and multi-role logic**.
- Used **DTOs and MapStruct** for efficient, type-safe mapping between layers.

### Mayyel Sawbna

- Developed a **hotel booking system** using **PHP and MySQL** with the **MVC design pattern** for maintainability.
- Utilized **XAMPP** for local server setup, database handling, and testing.

## EDUCATION

### Lebanese University (LU), Hadat

Bachelor Degree in Computer Science

Oct. 2021 – 2025

## TECHNICAL SKILLS

**Skill Sets:** Time management, Attention to details, Problem solver.

### Programming Languages, Frameworks & Tools:

- |                      |                 |                                |                           |
|----------------------|-----------------|--------------------------------|---------------------------|
| • Java, Springboot   | • Html, Css, Js | • Visual Studio Code, IntelliJ | • Power Designer, Postman |
| • Php, Xamp          | • C#, .Net Core | • Sql Server (DBMS)            | • Design Patterns, OOP    |
| • C, Data-Structures | • Mysql         | • Hibernate                    | • Git, GitHub, BitBucket  |

## CERTIFICATIONS

### Succeeding in Web Development Full Stack, *nammiskills*

Jan. 2025

### Programming Foundations Databases, *nammiskills*

Dec. 2024
