Date of birth: 11/29/2004

Work experience

2025-08 - 2025-10	<p>RA Development, France / Remote</p> <p>Flutter Developer Intern</p> <p>Developing a cross-platform mobile app for books, enabling users to read books, listen to audio versions, and track their reading/listening progress for each book.</p> <p>Implementing Flutter frontend and Firebase backend (Auth, Firestore, real-time updates) to support user data and progression tracking.</p> <p>Designing intuitive UI and features for a seamless reading and listening experience.</p>
2025-03 -	<p>AlienCode, Lebanon</p> <p>PadelHiveLb – Multi-Tenant Tournament Management Platform (Full Stack Developer - Angular, Node.js, PostgreSQL)</p> <p>Developing a scalable multi-tenant web platform for managing padel tournaments in Lebanon. Implemented player accounts, team registration, automated bracket generation with live scoring, ELO ranking system, leaderboards, and sponsor modules. Built admin dashboards for court owners to manage registrations, payments, and tournament operations.</p>
2025-03 - 2025-06	<p>AlienCode, Lebanon</p> <p>Time4Play - Multi-Tenant Sports Booking App - Flutter App</p> <p>Built a cross-platform booking app enabling multiple sports companies to manage courts independently. Implemented real-time court availability, authentication, and booking workflows. Designed architecture for scalable, isolated datasets. (Demo available on LinkedIn.)</p>
2024-04 - 2024-10	<p>AlienCode, Lebanon</p> <p>Smash Booking App - Flutter App</p> <p>Delivered a custom booking app for a client, featuring authentication, real-time reservations, and Firebase backend integration. Focused on creating a modern, intuitive user experience.</p>
2024-01 -	<p>AlienCode, Lebanon</p> <p>Mobile & Web Developer</p> <p>Delivered 2+ production-ready Flutter apps using Firebase (Auth, Firestore, real-time updates).</p> <p>Built and deployed responsive Angular + Node.js web apps with REST APIs and PostgreSQL.</p> <p>Implemented backends with Node.js/Express, structured DB designs via pgAdmin; integrated CI/CD on GitHub where applicable.</p> <p>Created multiple front-end websites (HTML, CSS, JavaScript, Bootstrap) for clients and training.</p>
2024-01 - 2025-01	<p>AlienCode, Lebanon</p> <p>AntsTech – E-Commerce Website for Electronics (HTML, CSS, JavaScript)</p> <p>Developed a responsive e-commerce website showcasing electronics, with product listings, navigation, and optimized UI for usability. Designed the frontend to allow smooth future backend integration.</p>

Education

2022-10 - 2025-07	<p>Lebanese International University</p> <p>Bachelor of Computer Science</p>
2016-09 - 2022-06	<p>Dr. Nazih Bizri High School</p> <p>Lebanese Baccalaureate Degree in Life Sciences</p>
