Summary

Mustafa Zabet – Computer Science graduate with solid .NET/C# and web development experience. Skilled in .NET MVC/Core, SQL, HTML, JavaScript, and TypeScript, and in docker containers. In Addition, familiar with advanced OOP and common design patterns. Practice collaborative Git-based version control workflows and agile development environments. Seeking to start my tech career as a Junior Software Engineer. I build scalable frontend and backend solutions and work efficiently within agile environment.

Core Skills

Net Core/MVC	SQL	HTML
JavaScript	TypeScript	OOP
Design Patterns	Git	Restful APIs
Agile	React Js	Docker

Experience

Choroid Studios - Contract Sidon, Lebanon

Web Developer June 2025 - Present

- Working in an Agile,4-person cross-functional team during a single 4-month development sprint to deliver iterative features.
- Building the front end with Next.js and Tailwind CSS: implemented 30+ responsive components and improved perceived TTI by 30%.
- Analyzing backend data flow and recommended caching changes that cut average API response time by 120 ms.

Choroid Studios - Internship Sidon, Lebanon

Web Developer June 2024 - August 2024

- Built 5+ responsive during intensive React implementing 25+ reusable component libraries.

- Completed 8+ Chatgpt integration experiences, developing 12 conversational prototypes with custom prompt engineering, achieving 90% response accuracy.
- Engineered 8 AI prototypes using Lang Chain and LlamaIndex, implementing retrieval-augmented generation across 50+ test queries with 85% context retention.

Projects

Inventory Management System - SaaS Platform March 2025 - Present

- Built multi-tenant platform with Super Admin and client portals.
- Built core modules including Products, Stock, Customers, Suppliers, Warehouses, and Analytics and more.
- Integrated JWT-based authentication and authorization with role-based access control (RBAC).
- Technologies: HTML, CSS, Js, React, Tailwind CSS, Recharts, .NET Core, LINQ, Stripe, OAuth 2.0.

Foodle Restaurant github.com/Mz876

- Built full-stack web app for restaurant management and customer interaction.
- Created admin dashboard, email marketing, and map integration.
- Integrated email marketing and Google Maps navigation.
- Created admin dashboard, email marketing, and map integration Technologies: HTML, CSS, JavaScript, PHP, MySQL.

Banking System github.com/Mz876

- Developed a comprehensive C++ application from scratch simulating an ATM and bank management system using Object-Oriented Programming (OOP) principles.
- Implemented ATM.
- Created administrative features for bank management, enabling account creation, deletion.
- Ensured robust system functionality through error handling, data validation, and secure transaction management.

Education

- Lebanese International University Bachelor Degree in Computer Science - 2022 - 2025.
- Zaatari High School Lebanese baccalaureate 2 - 2022.

Volunteering

Community Outreach Volunteer

Feb 2025 - Mar 2025

- Guided and organized 40+ event attendees across community events.
- Reduced event conflicts by 65% by implementing clear communication protocols.
- Enhanced community well-being for 100+ participants by combining food assistance with warm hospitality, achieving 95% participant satisfaction.
