SUMMARY

Computer science graduate seeking an opportunity to apply and enhance skills in software development, SaaS solutions, and intelligent systems. Driven to learn and tackle new challenges.

EDUCATION

Bachelor of Science in Computer Science – Class of 2025

Holy Spirit University of Kaslik (USEK)

PROFESSIONAL EXPERIENCE

- **Techno-Functional Consultant** Part-time

Exquitech Group – Feb 2025 – Jun 2025

- Customized and configured forms in Dynamics 365 Finance & Operations. Developed complex SSRS reports, and modified standard reports to meet client requirements and business needs.
- Collaborated with IBM Maximo and client teams to integrate D365 F&O modules (Customer Master, GL, Payment Journals, etc.) and developed a full Bidding & Tendering module from scratch.

- **Technical Consultant Intern**

Exquitech Group – Sep 2024 – Feb 2025

- Developed a custom Construction Management module in D365 Finance & Operations, including forms, workflows, scripts, Number Sequences and setup parameters
 - Designed database schema, collaborated with the functional team to prepare FDD and TDD documentation and deliver a complete solution.
-
