Hay labyad, 0000 Beirut

Profile

Developed and maintained full stack web applications using JavaScript, React, Node.js, and Python to meet client requirements.

Applied knowledge of data structures, algorithms, and software engineering principles to optimize code quality and system architecture.

Skills

Java

JavaScript

CSS

HTML

React

Software Design

Data Structures

Full Stack Development

Languages

English

Arabic

Education

Computer Science

LIU Lebanese International University, Beirut

Jan 2022 Jun 2025

Mastered programming languages including Java, Python, and JavaScript to develop both client-side and server-side applications.

Acquired in-depth knowledge of data structures, algorithms, and software design principles essential for building efficient software systems.

Learned about web development frameworks and technologies including HTML, CSS, React, and Node.js for creating dynamic web applications.

Network Security

CISCO

Learned techniques for identifying, preventing, and mitigating network vulnerabilities and cyber threats.

Explored cryptography principles and their applications in securing communications and data.

Implemented security measures for wireless networks and mobile devices to protect against unauthorized access.

Cisco Network Security Badge (View Credential):
