SUMMARY

Computer Engineer specialized in web development, with a strong foundation in artificial intelligence and strategic problem-solving. Highly skilled in a variety of programming languages, with a focus on creating robust web applications and user interfaces.

EDUCATION

- **Lebanese International University**

Masters of Science in

Computer Engineering

October 2023 - June 2025

GPA 3.1/4

- **Lebanese International University**

Bachelor of Science in

Computer Engineering

October 2020 - June 2023

GPA 3.35/4

SKILLS

Web Development:

- HTML5
- CSS (Bootstrap)
- JavaScript (ES5 & ES6)
- PHP
- .NET Core
- Laravel

Data Structures and Algorithms

Programming Languages:

- Java
- C++
- Python

Database Development:

- MySQL
- MS SQL

Operating Systems:

- Windows
- MacOS
- Linux (Ubuntu)

Languages:

- Arabic
- English
- French

EXPERIENCE

- **Integrated Digital Systems (IDS) - .NET Full Stack Web Development Internship**

December 2023 - February 2024

1. Acquired experience in C#, ASP.NET MVC, database management, API development, and client-side frameworks.

- **CodSoft - Frontend Internship**

October 2023 - November 2023

1. Worked on tasks involving HTML, CSS, and JavaScript to develop and improve web interfaces, gaining practical experience in front-end development.

- **Ogero - Network Internship**

February 2023 - March 2023

1. Cable installation and testing: Gained practical experience in cable installation, termination, and testing.
2. Problem-solving: Developed problem-solving skills in resolving network connectivity challenges.

PROJECTS

- Animal Sound Classification Platform (HTML5, CSS, JavaScript, Flask, MySQL, Python)
- Activity Club Portal Website (HTML5, CSS, Bootstrap, JavaScript, .NET Core, MS SQL)
- E-commerce Clothing Shop Website (HTML5, CSS, JavaScript, PHP, MySQL)
- Digital Marketing Landing Page (HTML5, CSS)
- Calculator (HTML5, CSS, JavaScript (ES6))

CERTIFICATES

- Responsive Web Design - freeCodeCamp
- JavaScript Algorithms and Data Structures - freeCodeCamp
