Profile

Motivated developer with solid foundation in software engineering through 42 Beirut program. Experienced in cross-platform development, clean code practices, and building scalable applications. Strong problem-solving and collaboration skills with hands-on real-world project experience.

Skills

- **Programming:** Dart, Python, MySQL, JavaScript (CSS, HTML)
- **Frameworks:** Flutter, React, Tailwind CSS
- **Tools:** Linux, Git, GitHub, AWS Cloud Services, Supabase, Terraform

Professional Experience

Software Developer, Intern, ([Telepaty](#)) **Lebanon** 12/2024 - 2/2025

- Collaborated with Flutter team to build large-scale cloud-based POS system, Applied clean code principles and structured design for maintainable applications

Software Developer, ([Freelance](#)) **Lebanon** 3 months

- Developed the front-end Progressive Web App using Flutter and Supabase. Managed global data caching and Controllers using Provider, application routing management. The app contains clean UI logic and efficient state management to ensure smooth and dynamic user experience. Also setting up a CI/CD for development and deployment on Hostinger.

Projects

working on a lot of side project using react u can find them in my 🐙 [github.com/OMAR-DIB](#)

Created a Custom AWS VPC

- Designed a VPC with public/private subnets, route tables, and an internet gateway using Terraform. Also launched an EC2 Ubuntu server in the public subnet.

Hosted a Static Website on AWS S3

- Created an S3 bucket configured for static website hosting using Terraform. Applied bucket policies to enable public access and tested the site deployment.

Provisioned a Basic AWS EC2 Instance

- Set up an EC2 instance using Terraform with a custom security group allowing SSH access. Launched and connected to an Ubuntu server successfully.

Delivery App (University Project),

- Designed responsive delivery app using Flutter, PHP, and MySQL, Integrated state management with Provider and full-stack API solution

Certifications

- AWS Certified Cloud Practitioner (2025) - [AWS](#)
- AWS re/Start Graduate (2025) - [AWS](#)
- Responsive Web Design (2024) - [FreeCodeCamp](#)
- Mobile Development (2024) - [Meta](#)
- Python Certificate (2024) - [CodSoft](#)

Education

- **Jinan University** 2021-2024
 - Bachelor of Computer Science
 - Tripoli, Lebanon — GPA: 3.4/4
- **42 Beirut** 2024-2025
 - Common Core Program

Languages

- **Arabic** [Native]
- **English** [Intermediate]
- **French** [Intermediate]
