## Summary

Backend-Focused Full Stack Developer with 4+ years of experience in backend architecture and REST APIs. Skilled in frontend frameworks, mentoring, and delivering scalable, maintainable solutions.

## Skills

**Backend:** Laravel, PHP, Node.js, Express.js

**Frontend:** React, JavaScript, HTML5/CSS3

**Databases:** MySQL, MongoDB

**Tools:** AWS, Firebase, Postman, Git, Cloudflare, Jira, Trello, Slack, Sentry

## Experience

### Web Development Instructor – CIS College

July 2025 – Present

- Deliver structured training in HTML, CSS, JavaScript, SQL, and more with project-based learning.
- Design and maintain curriculum materials and assessments aligned with industry standards.
- Mentor students through hands-on projects and code reviews, enhancing problem-solving

### Backend Developer – Creoshift

March 2023 – Present

- Built and optimized scalable Laravel APIs, improving performance by 25%
- Designed and maintained MySQL databases using Eloquent ORM for clean and efficient data handling.
- Turned business needs into technical solutions, while mentoring junior developers and reviewing code.

### Full Stack Developer – Pixel38

October 2020 – March 2023

- Developed and maintained reliable, scalable backend services using Laravel.
- Improved platform stability by resolving technical issues and optimizing performance.
- Integrated third-party platforms like WordPress and Shopify, promoting best practices for efficiency

### R&D Engineer – Celitech

April 2020 – August 2020

- Developed and optimized REST APIs using Serverless and TypeORM for scalability.
- Enhanced user interfaces with React and Material-UI for better usability.
- Performed unit testing and generated OpenAPI documentation for seamless integrations.

## Education

### Full Stack Development Bootcamp – Codi Tech

April 2019 – November 2019

- Completed intensive full-stack bootcamp covering frontend and backend technologies.
- Managed full development lifecycle of projects using Agile methodologies.

### BE in Communications & Electronics Engineering – Beirut Arab University

2013 - 2018

- Gained hands-on experience in telecommunication systems, networking, and signal processing.
- Completed practical projects in network design and wireless communication.
