- Collaborated with Product Owners to refine and prioritize product backlogs.
- Identified and removed obstacles to maintain steady team progress.
- Tracked team performance using Agile metrics to ensure transparency.
- Fostered a collaborative, self-organizing, and high-performing team culture.
- Promoted continuous improvement and Agile best practices.
- Managed dependencies within and across teams for smooth delivery.
- Assisted in identifying and mitigating project risks.

Pixel38 – Beirut Souks - Downtown, Lebanon

City: Beirut Souks - Downtown | Country: Lebanon

Junior Project Manager

[12/03/2025 – 31/05/2025]

- Manage a portfolio of accounts.
- Assist in planning, executing, and monitoring projects from start to finish.
- Create business requirements documents and prepare estimates and presentations.
- Perform research for potential projects to recommend best features and sitemaps.
- Coordinate project activities and ensure project timelines and budgets are met.
- Monitor project risks and issues and escalate as needed.
- Create and maintain project documentation, including project plans, status reports, and meeting minutes.
- Facilitate project team meetings and ensure all project stakeholders are informed and engaged.
- Conduct quality assurance activities to ensure project deliverables meet quality standards.
- Document and report quality metrics to project stakeholders.

Monty Mobile – Hamra, Lebanon

City: Hamra | Country: Lebanon

Business Analyst

[01/07/2024 – 01/10/2024]

- Managing product lifecycles and overseeing product development.
- Writing user stories based on client requirements and business needs.
- Collaborating with stakeholders to gather, analyze, and document detailed business and technical requirements.
- Following up with stakeholders and clients to address issues and ensure alignment with requirements.
- Developing detailed reports and presentations for stakeholders to support decision-making.
- Designing and optimizing workflows to enhance product efficiency and user experience.
- Participating in the implementation of new systems and products, ensuring they meet business needs.
- Monitoring project progress and identifying potential risks, proposing solutions when necessary.
- Supporting cross-functional teams in aligning technical solutions with business strategies and goals.

Full-Stack Developer

[14/05/2024 – 15/06/2024]

- Developed both front-end and back-end components.
- Built responsive web interfaces using HTML, CSS, and JavaScript.
- Used React for dynamic and interactive user experiences.
- Developed server-side logic with Node.js and Express.
- Managed databases like MongoDB and integrated RESTful APIs.
- Conducted integration testing and debugging to ensure reliability.

LANGUAGE SKILLS

Mother tongue(s): Arabic

Other language(s): English
