Summary

Motivated **Full-Stack Developer** who transforms ideas into high-impact web solutions. I combine strong analytical thinking with creative execution to build products that perform beautifully and deliver real business value.

Skills

Languages & Frameworks: PHP (Laravel), JavaScript (React), HTML5, CSS3, SQL, Python (basic).

Databases: MySQL, Relational Design.

API & Tools: RESTful APIs, Postman, Git/GitHub, JIRA.

QA Knowledge: Manual & API Testing, Test Case Design, Bug Tracking.

Concepts: MVC Architecture, OOP, Authentication & Authorization, Agile/Scrum Workflow.

Professional Experience

Full Stack Developer Intern – IDS, Beirut | May 2025 – July 2025

- Built **10+ CRUD modules in Laravel & React** and integrated authentication & authorization, improving platform usability and reducing manual admin work during sprint testing.
- **Tested and documented 20+ API endpoints** using Postman, catching errors early and reducing backend debugging time during sprints.
- Contributed to weekly Agile sprints, resolving all assigned tasks before deadlines, improving sprint completion rate by **100% consistency**.

Full Stack Developer – Freelance Projects | 2024 – 2025

- Delivered **10+ custom client web applications** with responsive UIs and fast-loading dashboards, achieving **client satisfaction**.
- Built reusable UI components in **React & Tailwind** and integrated backend logic using **Laravel**.
- Designed and implemented **secure user management systems**, integrating JWT Auth and access control for business clients.

Part Time Technology Trainer – AL JANA / ARCPA | Nov 2024 – Oct 2025

- Trained 200+ youth in web & app development across 200+ teaching hours, improving student project completion rate and digital confidence.

Projects

Car Sales Platform – Full-Stack SaaS: Multi-role marketplace with AI chatbot, AI Feedback sentiment System, analytics sales dashboards, e-commerce checkout, and full admin management (Laravel + React + MySQL + Flask + OpenAI).

Smart Room Meeting System – Full-Stack App (Laravel, React, MySQL) Secure room-booking & meeting platform with admin CRM, JWT Auth, REST APIs, and MOM management.

Education

B.Sc. in Computer Science — Rafik Hariri University (RHU) | September 2022 – April 2025
