

Youssef Shawwa

Nabatieh, Lebanon | +961 81 879 225 | youssefshawwa1@gmail.com | [LinkedIn](#)

Objective

With a strong interest in computer science, I would like to gain relevant work experience by undertaking an internship in the short term. In the long term, I want to become a Software Engineer/Developer employed at one of the Big Tech companies and own my own tech company.

Education

Lebanese International University (LIU), Nabatieh, Nabatieh Faoka, October 2023 - Present

- Bachelor's Degree In Computer Science
- Core subjects include Java Programming, Networking, Robotics, and Web Development.

CIS College Institute, Nabatieh, Nabatieh Faoka, October, 2022 - June, 2023

- Information Technology BT3 Certificate.
- Core subjects include Information Technology, Programming Algorithms, C Language, Operating Systems, Smartphones, MS Office, Networks, English Language, and Databases.

Projects

Damovie Project: Developed the Damovie website for a competition, contributing to the winning effort. Responsibilities included the design phase, utilizing CSS and Bootstrap, as well as working with JavaScript.

- bit.ly/damovie-project

Senior Man's Wear: After completing a Coursera course, I developed a senior website using Bootstrap, CSS, JS, and AJAX. This allowed me to build interactive front-end websites and work effectively with APIs. Also, its a one-page application.

- bit.ly/senior-man

Scripton Site: This website was built after completing a Coursera course, where I gained further knowledge in JavaScript. I applied many of the techniques and tricks I learned to create an appealing front-end design.

- bit.ly/Scripton-Site

Little Lemon: This website was built following completion of Meta's Front-End Specialization course on Coursera, allowing for further development of skills in JavaScript, HTML, and CSS.

- bit.ly/Little-Lemon

PayRoute: This early project, developed for a Coursera course as a senior project, provided me with foundational web development skills in HTML, CSS, and JavaScript.

- bit.ly/PayRoute

Column Drop: This small responsive web design application was created after completing a Coursera course.

Certificates

1. Python for Everybody, [Certificate](#) - March 2023, Coursera.
2. Google IT Support, [Certificate](#) - March 2023, Coursera.
3. HTML, CSS, and JavaScript for Web Developers, [Certificate](#) - May 2022, Coursera.
4. Web Design for Everybody: Basics of Web Development & Coding, [Certificate](#) - November 2022, Coursera.
5. You can find the collection of my completed courses and certificates on [LinkedIn](#)

Volunteering

FEKRA Project - Mar 2025 - Present - As the COO.

- As Chief Operating Officer, I lead and manage the strategic and operational activities of several teams and clubs, such as HR, Database, Educators, and the Research Club. My responsibilities include offering leadership, direction, and oversight to these groups to guarantee their unified and efficient contribution to FEKRA's mission objectives.

FEKRA Project - Dec 2024 - Present - As an HR Team Leader.

- As a volunteer HR team leader, I directed a team of four members, each leading their own team within the NGO. My responsibilities included leading the Human Resources department in volunteer recruitment, implementing new partnerships, and fostering team development and leadership through volunteer management, engagement, recruitment, and talent acquisition.

Life Sculptor - Jan 2025 - Present - As the President of the Heart to Mind Club

- As President of the Heart to Mind Club, a mental health initiative under the Life Sculptor NGO, I lead three departments: Research, Social Media, and PowerPoint. My responsibilities include overseeing the entire workshop organization process, encompassing initial research, content creation, and student presentations, to guarantee the effective completion of each stage. This involves close collaboration with the Club Coordinator and Heads of each department. Additionally, we manage a Peer Support program offering numerous interactive sessions to assist students.

Life Sculptor - Nov 2023 - Present - As a normal volunteer

- I volunteer for several teams, including PPT creation, research, IT, and monitoring. I assist with researching specific topics, creating and designing session PowerPoints, and hosting and monitoring sessions.

GiveNLearn Initiative - Jan 2023 - Jan 2023

- As the Survey Forms Manager, I made it my mission to create exceptional survey forms for every session using Google Forms.

Experience

Sales Assistant at La Familia Clothes Store - May 2019 - July 2022

- Advising and assisting customers in helping them find what they need
- Helped with computer problems and assisted the cashier when the problem occurred.

Intern at Fabrio Design Ltd - Nov 8, 2021 - Dec 31, 2021

- I was in a Virtual internship at Fabrio Design Ltd
- I created 2 Programs using React and Next.js Quiz Program and A 3D Viewer

Skills

- Languages: Arabic - Native; English - Pre-intermediate
- Technical Skills - IT Support, Windows, Web Development, HTML, CSS, JavaScript, jQuery, Bootstrap, Python, MS Office.
- Soft Skills - good at problem-solving, Leadership.
