Objective:

Recent Computer Science graduate with strong expertise in Artificial Intelligence, web development, and software programming. Ready to apply technical skills in computer vision and full-stack development to solve real-world problems. Passionate about innovation, teamwork, and continuous learning. Seeking a full-time role where I can contribute to impactful and meaningful projects.

Technical Skills:

- MS Office: Word, Excel, PowerPoint
- Programming: Python, C++, Java, C#, PHP, JavaScript
- Web Development: HTML, CSS, Bootstrap, ASP.NET
- AI & Computer Vision: Camera API integration, Image Processing
- Database: SQL, XAMP

Soft Skills:

- Problem-Solving | Team Collaboration | Time Management

Education:

- Bachelor's in Computer Science
- Islamic University of Lebanon (IUL)
- Life Science 2021 at Odabaa School (17.6)

Certifications:

- PwC's Girls Who Excel Programmer: PwC Middle East – Recognized for high potential in professional development.
- Thriving in Software Development: Beyond Code: Google Developer Groups (GDG) on Campus - IUL – Participated in a professional development webinar.

Projects:

- AI-Powered Skin Detection: Developed a dermatology assistant tool using Camera API & AI to detect skin conditions.
- Restaurant Management System (ASP.NET, C#): Built a full-stack web application for restaurant operations (orders, menu, staff management).
- Flower Shop System (Java Training): Designed and implemented a desktop application in Java to manage flower shop operations, including inventory, orders, and customer records, as part of a hands-on training program.

Experience:

- MS Office: Word, Excel, PowerPoint
- Python at USPEAK
- Solar Energy at Lebanese Organization - Assisted in renewable energy projects.
- Gastronomy at Lebanese Organization

Language:

English Level B2 , Native in Arabic
